

UX-WB LTE

UX LNB Serie guarantees an optimal signal reception and they fulfil every system requirements: from single distribution to complex multiuser or hospitality plants

- Maximum reception quality for all high definition programs
- A blocking filter for LTE (4G) signals has been incorporated to avoid interference with signals intended for mobile telephony; thanks to the integrated LTE filter, the LNB is immune to any interference due to LTE satellite band transmissions.
- Low noise figure and high reliability
- Small size
- Low consumption
- Some models are approved by Sky

UX-WB LTE

Code	287541
Description	UX-WB LTE is the new LNB converter of the UX family, Wide Band with 2 outputs with separate polarities H and V
Outputs	2 (V and H)
Gain	55
Consumption	100
LTE protection	-70
