

# LP345MF LTE

**Combo Aerials** 

Log-periodic MINI pre-assembled aerials for broadband characterized by extremely easy connection due to the F connector being located near the mast clamp.

## **Technical Chars**

- Thanks to the special pole mount, the aerial can be installed in both vertical and horizontal polarisation without adaptors or other accessories.
- The geometric distribution of the dipoles has been redesigned to achieve excellent filtering for interfering signals in the 4G LTE band above 790 MHz reserved for mobile telephony.
- It features excellent mechanical resistance to fixing the elements to the cradle, excellent mechanical resistance to rotation on the pole, and good electrical performance.
- The F connector is protected by a bayonet connector cover.
- White colour aerial.
