

## KIT 10-tivù S

### Kit Hospitality

The new **D-Matrix-4S FTA** power plant, which joins to the family of compact control panels is ideal for receiving and remodulating Free To Air.

**D-Matrix-4S FTA** makes it possible to receive from 4 different independent satellite transponders the HD or SD free desired and to remodulate them to output in the 4 available digital multiplexes (COFDM or QAM) across the entire tV band.

### Technical Chars

The kit contains:

- 1 pc D-MATRIX-8S-8T (283137)
- 2 pcs PROCAM TVSAT HD (282083)
