

UX-MBTW6 LTE

LNB

6° monoblock LNB with 2 universal outputs

Technical Chars

- The LNBs of the UX series guarantee excellent signal reception and are suitable for all requirements: from simple single installations to complex multi-user and centralised systems.
- Maximum reception quality for all high-definition programmes.
- An **LTE signal blocking filter** has been incorporated to prevent interference with signals intended for mobile telephony; thanks to the integrated LTE filter, the LNB is immune to interference from LTE transmissions in the satellite band.
- **Low noise figure** and high reliability.
- Small dimensions.
- Low consumption.
- Some models are approved by Sky.
