

SEL-BOX

Accessories devices

Self-powered outdoor siren with LED flashing light. Allows a choice of two timings, and through flashing of the flash allows a visual signal to the outside when turning on and another when turning off the system. Tropicalization of the protective resin circuit protects it from the weather and increases resistance to shock and vibration. Reinforced polycarbonate enclosure. It is equipped with tamper against opening and removal from the wall.

Technical Chars

- Reinforced polycarbonate outer container
- Galvanized steel intermediate cover mm8/10 (optional code 910361)
- 12V-2Ah allocable battery
- Acoustic intensity 116 dB at 1 meter
- Optical indicator with LED flashing light
- Protection against cover opening and tearing from wall
- Equipped with bubble level for easy wall mounting
- Power circuit protected against reverse polarity
- Selectable sounds
- Flash signal with system on
- Tropicalized electronic circuit
