

SHIELD V/WL

Outdoor wireless detectors

Outdoor, two-way volumetric, triple-technology, 2 IR+MW volumetric wireless sensor with active IR anti-masking function, which offers a very high degree of protection, both for residential and commercial applications, thanks also to compliance with EN 50131-2-4 Grade 3. The detector integrates WIN, which allows its power supply from an external source. This solution allows the microwave to be kept active at all times and excludes inhibition for 3 minutes after each detection, which is useful in high-risk applications. It also allows the heater to be connected and powered.

SHIELD V/WL		
Code		910381
Length	m	3 to 12
Scope width	°	85
Installation height	m	1-1.2
Sensitivity adjustment		Micrometric adjustment of microwave and lower infrared
Specifications		
Battery	V/Ah	3.6/2.4 Li-SOCL2
battery life		2
Communication distance free air	m	300
Supervising trasmission	min	5/10/20/60
Protection		IP44
Operating temperature	°C	-25 to +55
Dimensions and packaging		
Pieces		1
EAN code		8016978102570
Packaging dimensions	mm	196 x 100 x 107
Product dimensions	mm	81 x 98 x 189
Packaging weight	kg	0.6
Weight	kg	8.82
