

RF45 WHEEL W

Contacts for roller shutters

Roller shutter contact, due to its special construction is able to follow the movement of the shutter, because of the built-in tilting rod. The contact is complete with a 4-pole NC terminal block for alarm output and tamper output. The contact is available in two models: white or brown.

Technical Chars

- Compact dimensions
- Faithfully follows the movement of the roller shutter
- Ideal for installations where there is no space in the boxes
- Convenient terminal block
- NC alarm output
- Tamper output NC
- Rugged ABS body
